

LUMIERE RESEARCH SCHOLAR PROGRAM

Founded by Harvard & Oxford researchers, the Lumiere Research Scholar Program is a mentored research program for talented students. In the program, students work 1-1 with a researcher from a top university to produce an independent research project.

WE HELP STUDENTS

Create an
independent
research paper

Stand out in the
admissions
process

Build relationships
with PhD
researchers from
top universities

Receive credit
from UC San Diego
Extension

LUMIERE BY THE NUMBERS

2022-2023 SCHOOL YEAR

4200+

Applications

1400+

Mentors

22000+

Mentoring hours

62

Countries

\$390,000+

In financial aid

|---|--|--|--|

* Please check **application form** for updated list of topics for the topic focused program

* Students will also be able to customize their own research topic, if not currently available in the above offerings

OUR MENTORS

Lumiere has **1400+** mentors from top universities

EXAMPLE MENTOR PROFILES

CAITLIN NICHOLS

HARVARD UNIVERSITY

PhD in Biological and
Biomedical Science

SPECIALIZATION

Cancer Genetics,
CRISPR Gene Editing,
Molecular Biology

PRAISE OWOYEMI

**UNIVERSITY OF CALIFORNIA,
LOS ANGELES**

PhD student in Clinical
Psychology

SPECIALIZATION

Psycho-oncology, Clinical
Psychology, Health
Psychology

BHARGAV GOPAL

COLUMBIA UNIVERSITY

PhD in Economics

SPECIALIZATION

Labor Economics, Law
and Economics,
Applied Statistics

SANAH BHIMANI

YALE UNIVERSITY

PhD candidate in Physics

SPECIALIZATION

Cosmology (Evolution of
the Universe), Exoplanet
Data Analysis

PROGRAM TIMELINE

* This is the timeline for our **Individual and Premium Research programs**. The Lumiere Fellowship will have a distinct extended timeline.

Week 1: Meet with mentor and align on a topic

Week 2-4: Explore the topic and identify research question

Week 5-9: Write research paper with support from research mentor and writing coach

Week 10-12: Make final edits and submit paper for final evaluation

After week 12: Graduation ceremony and symposium! Students in the Premium Research and Publication Program will continue to meet with their mentor and submit their paper to a journal for publication

Opt to receive 3 units of post-baccalaureate credit from UCSD Extended Studies at the end of the program.

SELECTED STUDENT PROFILES

OJAS GUPTA

SCHOOL: Lynbrook High School

RESEARCH TOPIC:

Exploring the role of Humanin as a potential preventative and therapeutic in Alzheimer's disease.

LUMIERE EXPERIENCE:

"Lumiere paired me up with the perfect mentor, who helped me turn my ambitions of doing research in biology into a reality. The program schedule was extremely flexible, and helped me create two separate projects in our time together. Lumiere and my mentor helped me create concrete projects around my passions and have empowered me to keep pushing the boundaries of science."

Ojas was the winner of the MIT THINK competition, where he submitted his Lumiere research project.

ALEXANDRA GIULIANI

SCHOOL: International School of Monaco

RESEARCH TOPIC:

Cancer mRNA Vaccines as a Promising Approach for Treating Luminal A Breast Cancer.

LUMIERE EXPERIENCE:

"With the support of the Lumiere team and my mentor, Dr. Daniel Wilson, I wrote a paper that proposes new possibilities for breast cancer treatments. My project has now led me to get more hands-on experience in the field of cancer research, and I'm excited to be interning this summer in a lab at the Boston Children's Hospital and Harvard Medical School."

Alexandra's Lumiere research paper will be published in the International Journal of High School Research this year.

IDA THERESE PRESTEGÅRD HØVIK

UNIVERSITY: Yonsei University

RESEARCH TOPIC:

Holding Transnational Corporations to Account: A Comparative Analysis.

LUMIERE EXPERIENCE:

"I am in my final year of university, and am currently writing a second bachelor thesis, while also conducting research together with a professor. I thank Lumiere for providing such a comprehensive program through which we could explore and conduct research of our own. My research mentor was such a pleasure to work with. She provided helpful advice and feedback, while also successfully keeping me from straying too far from my topic when I carried out my research. These meetings combined with the various workshops and many available resources, such as the writing center, made the Lumiere program an unforgettable experience."

Ida's Lumiere research paper was published in the Yale Review of International Studies.

SELECTED STUDENT PROFILES

LILY ASHRAF

RIYA MAIYA

THÉO ABRAMO

UNIVERSITIES ACCEPTED TO:

Princeton University

RESEARCH TOPIC:

How can the standard model of particle physics be consistently extended to include additional light-matter fields, and how might such fields explain dark matter?

LUMIERE EXPERIENCE:

“Lumiere truly helped me a lot! The admissions office at Princeton called my mentor and asked him questions about me. Because the university values research a lot, I got in! Thank you so much because with this program and this chance I would never ever be able to attend and get a full ride.”

UNIVERSITIES ACCEPTED TO:

University of Pennsylvania

RESEARCH TOPIC:

What were the initial conditions of the universe that permitted the growth of the structures we see today?

LUMIERE EXPERIENCE:

“I touched on my experience at Lumiere when explaining my previous background with the subject I was applying for, to show demonstrated interest. I also used the recommendation letter to apply to all the universities. I was accepted ED into Penn, and I’m so so happy about it (it was my top choice), and I couldn’t have gotten here without your help. The Lumiere Team really helped me narrow down exactly what I was interested in, learn more about it, and gave me a great experience to showcase to universities.”

UNIVERSITIES ACCEPTED TO:

University of California at Berkeley

RESEARCH TOPIC:

The impact of USA’s and China’s AI advancement on the European market, and its role in reshaping global power dynamics

LUMIERE EXPERIENCE:

“Alongside the guidance of my mentor, an MIT Political Science Ph.D. candidate, I published a paper exploring the US-China-EU tripartite relationship in the realms of artificial intelligence. Thanks to Lumiere’s incredibly flexible program, I was able to have weekly meetings with my mentor and take part in other Lumiere workshops while still balancing my other engagements in school. Lumiere has made navigating the complex world of academia an amazing experience and would recommend it to any motivated student.”

PUBLICATIONS AND COMPETITIONS

Lumiere alumni have been published in top high school and college-level journals and excelled at competitions. Here are some of their successes!

OJAS

“Exploring the role of humanin as a potential preventative and therapeutic in Alzheimer’s disease”

Winner of MIT THINK competition

SALIL

“To what extent have emerging social movements caused politicians to respond with effective social change?”

Winner of LSE Undergraduate Political Review’s Annual Essay Competition

IDA

“Holding Transnational Corporations to Account: A Comparative Analysis”

Published in The Yale Review of International Studies

JUSTIN

“What public political attitudes make countries prone to democratic backsliding?”

Featured on the Brown Journal of World Affairs podcast

ANNA

“How the CRISPR–Cas9 Gene Editing Complex Can Be Used to Treat Human ImmunodeficiencyVirus 1 and Sickle Cell Disease with Immune Cell Therapies and Genetic Engineering with Insight Into its Societal Impacts”

Published in Intersect: The Stanford Journal of Science, Technology, and Society

SHAUNAK

“Using Neural Networks to Accurately predict Electrical energy within Point– Absorbers”

ISEF Regeneron national finalist; first place in regional ISEF fair

LUMIERE ALUMNI AND COLLEGE ADMISSIONS

In the 2022-2023 admissions cycle, Lumiere alumni were accepted to undergraduate degrees at every single Ivy League university, Stanford, UC Berkeley, Oxford and Cambridge. This includes

7

YALE
acceptances

9

UPENN
acceptances

4

STANFORD
acceptances

15

CORNELL
acceptances

8

COLUMBIA
acceptances

17

UC BERKELEY
acceptances

A survey to more than 340 alumni that applied to universities in 2022-23 showed that 20% of Lumiere alumni who applied to an Ivy League university or Stanford got in - that is **4X** higher than the general rate of acceptance at these universities!

Students that did the Lumiere Research Scholar Program through the help of our financial aid program got into Princeton, Dartmouth and the University of Pennsylvania (with significant financial aid offers).

Lumiere alumni received scholarships worth more than an estimated 1 million USD such as the Trustee Scholarship at the University of Southern California (full ride), full scholarships to the University of Toronto, the Zollman Scholarship at Smith College (college's highest scholarship) and the Presidential Scholarship at Bryn Mawr College.

PROGRAMS OFFERED

INDIVIDUAL RESEARCH PROGRAM

PREMIUM RESEARCH & PUBLICATION PROGRAM

LUMIERE RESEARCH FELLOWSHIP

Individual sessions with mentor	9	15	30
Individual sessions with writing coach	2	4	6-8
Individual sessions with publication specialist	-	4	4
Program oversight from Lumiere program manager	✓	✓	✓
Goal output	College-level academic paper	Publication in high-school or college-level journal*	Highly selective research competition or publication*
Cost & Duration *US Dollar	\$2800 USD 12 weeks	\$5400 USD 3-4 months research time, 1-4 months publication time	\$8900 USD 6-12 months

*No academically rigorous program can or should promise publication. We provide support for 3 rounds of submission to selective high-school or college-level journals.

LUMIERE RESEARCH INCLUSION FOUNDATION

In 2022, we officially launched a 501(c)(3) non-profit, the Lumiere Research Inclusion Foundation, that provides free high-quality research opportunities to talented, financially disadvantaged students.

What We Do

At the Foundation, we pair talented high school students with volunteer PhD mentors to do the Individual Research Program at no cost.

Our Impact

35

Countries expanded outreach to

1500+

Applications in the past year

175

Students supported through aid

I hope that you can join us on this journey - if you work with talented students from low-income backgrounds, please get in touch with us!

Here is the application form to become a Breakthrough Scholar at the Lumiere Research Inclusion Foundation:

APPLICATION DEADLINE & PROGRAM DATES

FALL COHORT 2023

 **Application Deadline**
August 27, 2023

 **Cohort Timing**
September 18, 2023

WINTER COHORT 2023

 **Application Deadline**
November 26, 2023

 **Cohort Timing**
December 18, 2023

SPRING COHORT 2024

 **Application Deadline**
January 14, 2024

 **Cohort Timing**
February 5, 2024

SUMMER COHORT 2024

 **Application Deadline**

Early Admission: February 18, 2024	Regular Admission 1: April 14, 2024
Priority Admission: March 17, 2024	Regular Admission 2: May 12, 2024

 **Cohort Timing**
June 3, 2024

SUMMER II COHORT 2024

 **Application Deadline**
June 26, 2024

 **Cohort Timing**
July 15, 2024

APPLICATION TIMELINE

Application:
Fill out an online application before the deadline

Interview:
Shortlisted students will be scheduled for an interview

Mentor Match:
Selected students will be matched with a mentor in their area of research interest
